Keymacro is a free application to create keyboard shortcuts in the system. Features: -Create shortcuts for several actions: close, run, copy, paste, show desktop, lock screen, maximize, minimize, browse files, shutdown, install, connect to a network device, show all devices, move to workspace x, show all desktops.... -Create keyboard shortcuts: use any key sequence on your keyboard, separate the shortcuts with a space or a comma, add a shortcut to shutdown, login, restart, shutdown, shutdown, show all desktops, show all files, open menu in Home folder, goto the trash, unlock the screen, view all the mounted disks, see system information, see more info on a file -Import your own keysets: Create keymacro from any existing keyboards you may have, or from the files you could have saved from previous sessions -Export your own keysets: Send your own saved keymacro to any other users you have on your system -Full customization: add some text, some icons and many more options -Personal and configurable: The more you use it, the more useful it will become -More advanced: support for monitors, themes, windows categories, customized actions, support for all keyboards, support for Windows 7 How do I use it? 1) Open the folder where vou've installed Keymacro and you'll see the icons of all the actions, the available shortcut keys and an example of a keymacro you've already created 2) Go to 'Create Keymacro' and select a folder you want to save the keys. When you've done that, you'll see a list of all the available actions in the system 3) Next you can select the items you want to save in the 'Create Keymacro' page. When you click the 'Create' button, a list of all the possible key sequences will be displayed. If you'd like to select them you can move the selection bar. 4) The values you've selected will be now added to your keymacro 5) Just after finishing you can use the created keymacro by double clicking the icon of the action. -Create shortcuts for several actions: close, run, copy, paste, show desktop, lock screen, maximize, minimize, browse files, shutdown, install, connect to a network device, show all devices, show all files, open menu in Home folder, goto the trash, unlock the 2edc1e01e8
